# ADRIATIC SEA

## ADRIATIC

50 shades of blue

The Adriatic sea is a God given summer pool with more than 1000 islands located along the Croatian coast. Origins of the name ADRIATIC are linked to Etruscan settlement of Adria, which derives its name from Illyrian "ADUR" meaning "WATER". The temperature is warm enough to stay in for hours, and cool enough to get refreshed from the midday sun. The surface water temperature ranges from 25 C (80 F) in summer to 12 C (54 F) in winter. The Adriatic sea presents crystal clear 50 shades for blue, from green turquoise to deep blue waters. Imagine waking up on Your private yacht, having breakfast on the deck, and jumping in the turquoise waters. Imagine changing backdrops of the amazing nature changing while You slide across the Sea. Everything on the Adriatic sea is cozy and intimate like your holiday escape should be.

### FAVOURITE PLACE ON THE ADRIATIC COAST

When the weather allows, I'm always happy and excited to sail to the remote island of Susac. Off of the navigation routes, it's an oasis surrounded by the endless open sea that makes you feel completely secluded from the rest of the world. The only inhabitants of the island are the lighthouse keeper who is good friend of mine and Shepard with his flock of sheep.
